

Andrea DeGasperis-Ronco

Principal, Opus Homes

With over a decade of experience in the industry, Andrea's entrepreneurial spirit truly took off as she embraced her family's deep roots in construction. Realizing how overwhelming the journey of buying a new home can be, she combined her passion for the industry with her desire to make a difference. In 2011, Andrea founded OPUS Homes with a vision to offer a fresh, personal, and hand-held approach to homebuilding process.

From day one, Andrea's goal has been to create homes that stand out amongst the rest—homes that are not only beautiful, but also filled with thoughtful details such as sustainable Go Green™ features and Signature Architectural Features & Finishes. Alongside her husband, Michael, and their incredible team, OPUS has built over 1,000 homes that reflect her commitment to quality, innovation, and community. Through OPUS' Families Helping Families program, she ensures OPUS gives back to the communities they serve.

Balancing the roles of wife, mother of three, and business leader, Andrea's priority has always been to create a supportive and respectful environment for her clients, team members, and partners. Her leadership and passion for excellence have earned her multiple accolades, including the Vaughan Chamber of Commerce's Young Entrepreneur Under 40 Award in 2016 and the Riley Brethour Leadership Award from BILD in 2018. Andrea also received the 2018 Next Generation Award from the CIBPA, among other well-deserved honors.

Above all, Andrea is proud to be a role model to her children, showing them how passion, dedication, and a positive attitude can make a real impact—both in business and in life.
